PROFESSIONAL SUMMARY

IT Operations & Project Lead with 2+ years of experience owning application delivery, cloud infrastructure, production deployments, technical projects and business technology operations. Hands-on with DigitalOcean, GCP, Docker, GitHub Actions, Node.js, Express.js, Python, FastAPI, Flutter/Dart, REST APIs, MySQL and PostgreSQL. Experienced in AI integrations using OpenAI and Gemini APIs for LLM-powered chatbots, customer-support workflows and business automation. Combines software development with infrastructure, operational reliability, technical documentation and cross-functional delivery.

TECHNICAL SKILLS

Languages: C++, C, Dart, JavaScript, Python, SQL

Application Development: Flutter, Android, HTML, CSS, REST APIs, API Integration, Google APIs

Backend: Node.js, Express.js, FastAPI, Python, RESTful Services

Cloud & DevOps: Google Cloud Platform (GCP), DigitalOcean, Docker, GitHub Actions, SSL, Domain & DNS Management

Databases: MySQL, PostgreSQL, Firebase

AI & LLM: OpenAI API, Gemini API, AI Customer Support, AI-assisted Application Workflows

Engineering & Business Systems: Git, GitHub, Payment Gateway Integration, E-commerce Workflows, Technical Documentation

Business/Finance Exposure: Balance-sheet review, audit support, company documentation and finance-operation workflows

PROFESSIONAL EXPERIENCE

IT Operations & Project Lead | Seabase Trading Pvt. Ltd.

Jun 2024 - Present | On-site

- Lead end-to-end technology operations covering web applications, application delivery, production support, cloud infrastructure, deployments and technical project execution.
- Manage cloud infrastructure and production environments on DigitalOcean and GCP, including deployment, SSL, domain/DNS and operational maintenance; improved site reliability by 25%.
- Build and integrate business applications and REST APIs using Node.js, Express.js, Python and FastAPI, with MySQL/PostgreSQL data workflows.
- Integrate OpenAI and Gemini APIs for LLM-powered chatbot, AI customer-support and automation workflows across business applications.
- Coordinate technical requirements, documentation, vendors and business stakeholders; support company operations with structured technical and business records.

Flutter Developer | HousingCart Reality Services & Infrabuild Pvt. Ltd.

Aug 2023 - Jun 2024 | On-site

- Optimized Flutter applications by integrating AI chat support and Google APIs, contributing to a 30% increase in user satisfaction and 20% improvement in app retention.
- Collaborated across application development, API integration, debugging and release workflows using Flutter, GCP and GitHub.

Software Engineer Intern | Honeysha Technologies Pvt. Ltd.

Jun 2022 - Oct 2022 | On-site

- Engineered and delivered six Flutter applications for different client requirements under tight delivery timelines.
- Worked across Flutter, Android, HTML/CSS and GitHub, contributing to application performance, UI delivery and feature implementation.

Android App Developer | Reeya Community

Mar 2022 - Apr 2022 | Remote

- Contributed to Android application development and feature implementation in a remote development environment.

App Development Lead | Google Developer Student Club (GDSC)

Aug 2022 - Jul 2023

- Led app-development activities and supported student developers across application projects, technical learning and peer collaboration.

SELECTED PROJECTS

MediCore HIS - Hospital Information System | Personal Portfolio Project

- Building an enterprise-style HIS covering patient registration, appointments, OPD/IPD workflows, EMR, doctor/nurse operations, pharmacy, laboratory, radiology, billing, inventory, role-based access control, audit logs and operational dashboards.
- Designed as a production-oriented healthcare showcase emphasizing modular APIs, secure access, traceable workflows, notifications and AI-assisted administrative capabilities.

Ashok Medical - Pharmacy E-commerce & Store Management Platform | Personal Project

- Building a production-style medical-store platform with medicine search, categories, cart/checkout, orders, inventory, delivery rules, customer accounts, admin management, invoices and payment/QR workflows.
- Includes an admin dashboard for product, inventory, pricing, delivery, payment verification and store settings, demonstrating full-stack business application development.

HousingCart - Real Estate Application

- Flutter-based real-estate application using GCP, Google APIs and REST services for dynamic property data, AI chat support and user-focused workflows.

PS Animeverse - Flutter Application

- Feature-rich Flutter application integrating REST APIs for real-time anime data with search, categories and sorting by rank, season and upcoming releases.

OTHER PROJECTS

Awasthi Vitality, WheelStudio, Kaksha, Patient Disease Prediction (ML), Rotary Jobs & Employer, Telephone Billing System (C++).

EDUCATION

Bachelor of Technology - Information Technology | Government Engineering College | 2020 - 2024 | CPI: 8.4

CBSE - Science (PCM) | D.A.V. Public School, Bilaspur (C.G.) | 2017 - 2020 | Class 10: 89.4% | Class 12: 90.6%

CERTIFICATION

Google Data Analytics Professional Certificate - Google + Coursera | Jun 2022 - Oct 2022 | Completed six-month professional program and earned eight course certificates.
